

# Specialist tape for multiple industries & applications

Industrial, commercial and specialist adhesive tapes engineered for extreme conditions, tough trades and demanding environments.

# Made in Great Britain since 1972

**Tickitape is a UK-based manufacturer and global supplier of high-performance adhesive tapes, engineered for industrial, commercial and specialist applications.**

With a legacy dating back to 1972, we serve sectors from construction to aerospace with reliability, innovation and full specification support.

We partner with our clients to fully understand their materials, environments and performance requirements. Whether you're dealing with extreme heat, deep-sea pressure, constant movement, chemical exposure or demanding installation conditions, our solutions deliver.

Our portfolio is divided across our master-brands: **TickiXtreme, TickiTrade, TickiGlaze, TickiFloor, TickiAgri,**

**TickiShow** and **TickiBase**, making it simple for customers to find the right tape to meet the precise demands of their sector.

We also offer bespoke product development, custom formats, and white-label packaging, meaning you get a complete service, from formulation to branding.

# Products & Services

**Tickitape supplies a comprehensive range of industrial grade adhesive tapes, bonding systems and specialist materials designed for reliability, durability and environmental resistance.**

Our offerings support applications from structural bonding and insulation to masking, protection, identification, sealing and repair.

## **Core Product Categories:**

- **Aerospace & defence-approved materials**
- **Cloth, gaffer & performance tapes**
- **Foil tapes**
- **High-temperature tapes**
- **Insulation & HVAC tapes**
- **Marine-grade tapes**
- **Masking & protection films**
- **Single & double-sided tapes**
- **Structural bonding systems**
- **Waterproofing and sealing tapes**

## Our extreme range delivers adhesive solutions built for the harshest operational environments.

These products are developed to withstand temperature extremes, high pressure, vibration, moisture, UV exposure and aggressive chemicals. Trusted by engineers, maintenance teams and OEMs, TickiXtreme gives reliability when failure is not an option.

# Marine

**Built to perform in salt water, high-movement and corrosive environments.**

Used across shipbuilding, vessel maintenance, deck operations and marine electrical systems, providing dependable performance in demanding marine and offshore conditions.

# Oil & Gas

**Proven in extreme industrial environments where failure is not an option.**

Specified for on- and off-shore rigs, pipelines, maintenance and safety-critical installations, offering resistance to chemicals, heat and prolonged UV exposure.

# Military & Government

Trusted in operational settings that demand strength, discretion and reliability.

Applied in field repairs, logistics, equipment protection and temporary installations, supporting defence and government operations in challenging conditions.

# Aerospace

Precision performance for applications where weight, accuracy and consistency matter.

Used in aircraft assembly, protection, masking and maintenance, delivering secure bonding and resistance to vibration and temperature extremes.

# Automotive

Engineered for modern automotive environments where durability and process control are essential.

Supporting vehicle manufacturing and service operations, these tapes deliver reliable adhesion and long-term performance under constant movement, heat variation and demanding operating conditions.

# HVAC

Reliable performance for systems operating day in, day out.

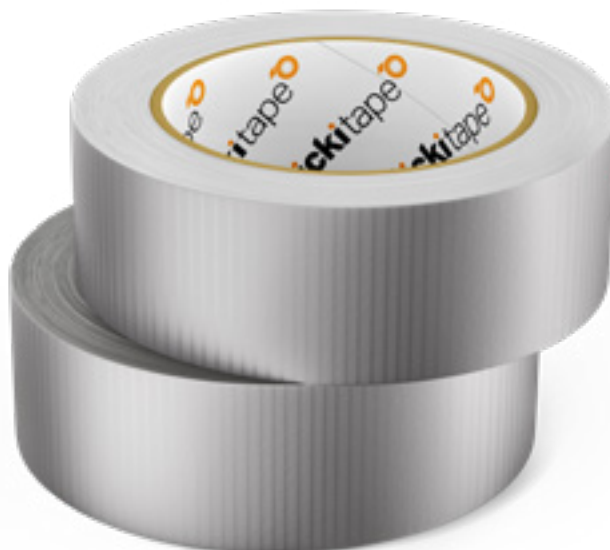

Applied to insulation, ducting, sealing and thermal protection in commercial and industrial HVAC installations, supporting long-term efficiency and system integrity.
